

DP05 ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2010-2014 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Owego town, Tioga County, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
<b>SEX AND AGE</b>				
Total population	19,595	+/-23	19,595	(X)
Male	9,879	+/-252	50.4%	+/-1.3
Female	9,716	+/-252	49.6%	+/-1.3
Under 5 years	823	+/-159	4.2%	+/-0.8
5 to 9 years	1,126	+/-183	5.7%	+/-0.9
10 to 14 years	1,523	+/-188	7.8%	+/-1.0
15 to 19 years	1,316	+/-179	6.7%	+/-0.9
20 to 24 years	1,012	+/-161	5.2%	+/-0.8
25 to 34 years	2,048	+/-248	10.5%	+/-1.3
35 to 44 years	2,533	+/-221	12.9%	+/-1.1
45 to 54 years	3,156	+/-272	16.1%	+/-1.4
55 to 59 years	1,418	+/-193	7.2%	+/-1.0
60 to 64 years	1,304	+/-196	6.7%	+/-1.0
65 to 74 years	1,698	+/-171	8.7%	+/-0.9
75 to 84 years	1,228	+/-185	6.3%	+/-0.9
85 years and over	410	+/-116	2.1%	+/-0.6
Median age (years)	43.6	+/-1.3	(X)	(X)
18 years and over	15,291	+/-170	78.0%	+/-0.9
21 years and over	14,651	+/-202	74.8%	+/-1.0
62 years and over	4,139	+/-253	21.1%	+/-1.3
65 years and over	3,336	+/-185	17.0%	+/-0.9
18 years and over	15,291	+/-170	15,291	(X)
Male	7,747	+/-199	50.7%	+/-1.2
Female	7,544	+/-203	49.3%	+/-1.2
65 years and over	3,336	+/-185	3,336	(X)
Male	1,499	+/-120	44.9%	+/-2.6
Female	1,837	+/-134	55.1%	+/-2.6
<b>RACE</b>				
Total population	19,595	+/-23	19,595	(X)

Subject	Owego town, Tioga County, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
One race	19,265	+/-177	98.3%	+/-0.9
Two or more races	330	+/-176	1.7%	+/-0.9
One race	19,265	+/-177	98.3%	+/-0.9
White	18,799	+/-169	95.9%	+/-0.8
Black or African American	162	+/-48	0.8%	+/-0.2
American Indian and Alaska Native	14	+/-23	0.1%	+/-0.1
Cherokee tribal grouping	0	+/-18	0.0%	+/-0.2
Chippewa tribal grouping	0	+/-18	0.0%	+/-0.2
Navajo tribal grouping	0	+/-18	0.0%	+/-0.2
Sioux tribal grouping	0	+/-18	0.0%	+/-0.2
Asian	191	+/-139	1.0%	+/-0.7
Asian Indian	22	+/-37	0.1%	+/-0.2
Chinese	104	+/-97	0.5%	+/-0.5
Filipino	30	+/-50	0.2%	+/-0.3
Japanese	0	+/-18	0.0%	+/-0.2
Korean	35	+/-42	0.2%	+/-0.2
Vietnamese	0	+/-18	0.0%	+/-0.2
Other Asian	0	+/-18	0.0%	+/-0.2
Native Hawaiian and Other Pacific Islander	0	+/-18	0.0%	+/-0.2
Native Hawaiian	0	+/-18	0.0%	+/-0.2
Guamanian or Chamorro	0	+/-18	0.0%	+/-0.2
Samoa	0	+/-18	0.0%	+/-0.2
Other Pacific Islander	0	+/-18	0.0%	+/-0.2
Some other race	99	+/-117	0.5%	+/-0.6
Two or more races	330	+/-176	1.7%	+/-0.9
White and Black or African American	55	+/-41	0.3%	+/-0.2
White and American Indian and Alaska Native	61	+/-51	0.3%	+/-0.3
White and Asian	181	+/-160	0.9%	+/-0.8
Black or African American and American Indian and Alaska Native	4	+/-8	0.0%	+/-0.1
Race alone or in combination with one or more other races				
Total population	19,595	+/-23	19,595	(X)
White	19,125	+/-184	97.6%	+/-0.9
Black or African American	221	+/-64	1.1%	+/-0.3
American Indian and Alaska Native	79	+/-59	0.4%	+/-0.3
Asian	372	+/-87	1.9%	+/-0.4
Native Hawaiian and Other Pacific Islander	0	+/-18	0.0%	+/-0.2
Some other race	128	+/-120	0.7%	+/-0.6
HISPANIC OR LATINO AND RACE				
Total population	19,595	+/-23	19,595	(X)
Hispanic or Latino (of any race)	340	+/-126	1.7%	+/-0.6
Mexican	84	+/-92	0.4%	+/-0.5
Puerto Rican	191	+/-90	1.0%	+/-0.5
Cuban	0	+/-18	0.0%	+/-0.2
Other Hispanic or Latino	65	+/-76	0.3%	+/-0.4
Not Hispanic or Latino	19,255	+/-129	98.3%	+/-0.6
White alone	18,506	+/-220	94.4%	+/-1.1
Black or African American alone	162	+/-48	0.8%	+/-0.2
American Indian and Alaska Native alone	0	+/-18	0.0%	+/-0.2
Asian alone	191	+/-139	1.0%	+/-0.7
Native Hawaiian and Other Pacific Islander alone	0	+/-18	0.0%	+/-0.2
Some other race alone	80	+/-116	0.4%	+/-0.6
Two or more races	316	+/-173	1.6%	+/-0.9
Two races including Some other race	15	+/-24	0.1%	+/-0.1
Two races excluding Some other race, and Three or more races	301	+/-170	1.5%	+/-0.9

Subject	Owego town, Tioga County, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Total housing units	8,338	+/-192	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Unrelated individuals 15 years and over	(X)	(X)	22.0%	+/-4.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2010-2014 tables, industry data in the multiyear files (2010-2014) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <http://www.census.gov/people/io/methodology/>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see [http://www.census.gov/hhes/www/hlthins/publications/coverage\\_edits\\_final.pdf](http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf) for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table in 2009, 2010, 2011, or 2012. Select geographies of 2008 data comparable to the 2009, 2010, 2011, and 2012 tables are accessible at <http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html>.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

35.0 percent or more	450	+/-136	32.7%	+/-8.7
Not computed	97	+/-66	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection. See Errata Note #93 for details.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval

or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

With a broadband Internet subscription	(X)	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes

when using multi-year data containing data from 2013.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
