### ACS DEMOGRAPHIC AND HOUSING ESTIMATES

**Survey/Program:**

American Community Survey

**Year:**

2019

**Estimates:**

5-Year

**Table ID:**

DP05

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, *Overview of Race and Hispanic Origin: 2010*, issued March 2011. (pdf format)

The 2015-2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

**Explanation of Symbols:**

An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "\*\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

### SELECTED ECONOMIC CHARACTERISTICS

**Survey/Program:**

American Community Survey

**Year:**

2019

**Estimates:**

5-Year

**Table ID:**

DP03

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

2019 ACS data products include updates to several categories of the existing means of transportation question. For more information, see: [Change to Means of Transportation](#).

Between 2018 and 2019 the American Community Survey retirement income question changed. These changes resulted in an increase in both the number of households reporting retirement income and higher aggregate retirement income at the national level. For more information see [Changes to the Retirement Income Question](#).

The categories for relationship to householder were revised in 2019. For more information see [Revisions to the Relationship to Household](#) item.

Beginning in data year 2019, respondents to the Weeks Worked question provided an integer value for the number of weeks worked. For data years 2008 through 2018, respondents selected a category corresponding to the number of weeks worked.

Occupation titles and their 4-digit codes are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2018 and later years are based on the 2018 revision of the SOC. To allow for the creation of the multiyear tables, occupation data in the multiyear files (prior to data year 2018) were recoded to the 2018 Census occupation codes. We recommend using caution when comparing data coded using 2018 Census occupation codes with data coded using Census occupation codes prior to data year 2018. For more information on the Census occupation code changes, please visit our website at <https://www.census.gov/topics/employment/industry-occupation/guidance/code-lists.html>.

In 2019, methodological changes were made to the class of worker question. These changes involved modifications to the question wording, the category wording, and the visual format of the categories on the questionnaire. The format for the class of worker categories are now listed under the headings "Private Sector Employee," "Government Employee," and "Self-Employed or Other." Additionally, the category of Active Duty was added as one of the response categories under the "Government Employee" section for the mail questionnaire. For more detailed information about the 2019 changes, see the 2016 American Community Survey Content Test Report for Class of Worker located at [http://www.census.gov/library/working-papers/2017/acs/2017\\_Martinez\\_01.html](http://www.census.gov/library/working-papers/2017/acs/2017_Martinez_01.html).

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of

nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry titles and their 4-digit codes are based on the North American Industry Classification System (NAICS). The Census industry codes for 2018 and later years are based on the 2017 revision of the NAICS. To allow for the creation of multiyear tables, industry data in the multiyear files (prior to data year 2018) were recoded to the 2017 Census industry codes. We recommend using caution when comparing data coded using 2017 Census industry codes with data coded using Census industry codes prior to data year 2018. For more information on the Census industry code changes, please visit our website at <https://www.census.gov/topics/employment/industry-occupation/guidance/code-lists.html>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 – please see [https://www.census.gov/library/working-papers/2010/demo/coverage\\_edits\\_final.html](https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html) for more details. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See [https://www.census.gov/topics/health/health-insurance/about/glossary.html#par\\_textimage\\_18](https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18) for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

The 2015-2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

An "\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "\*\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

## ACS 2015-2019 SELECTED HOUSING CHARACTERIS

Owner-occupied	307	62.0%
Renter-occupied	188	38.0%
Average household size of owner-occupied unit	2.32	(X)
Average household size of renter-occupied unit	1.69	(X)

**YEAR HOUSEHOLDER MOVED INTO UNIT**

Occupied housing units	495	495
Moved in 2017 or later	44	8.9%
Moved in 2015 to 2016	39	7.9%
Moved in 2010 to 2014	59	11.9%
Moved in 2000 to 2009	223	45.1%
Moved in 1990 to 1999	34	6.9%
Moved in 1989 and earlier	96	19.4%

**VEHICLES AVAILABLE**

Occupied housing units	495	495
No vehicles available	9	1.8%
1 vehicle available	262	52.9%
2 vehicles available	115	23.2%
3 or more vehicles available	109	22.0%

#### **HOUSE HEATING FUEL**

Occupied housing units	495	495
Utility gas	21	4.2%
Bottled, tank, or LP gas	127	25.7%
Electricity	90	18.2%
Fuel oil, kerosene, etc.	232	46.9%
Coal or coke	7	1.4%
Wood	7	1.4%
Solar energy	0	0.0%
Other fuel	0	0.0%
No fuel used	11	2.2%

#### **SELECTED CHARACTERISTICS**

Occupied housing units	495	495
Lacking complete plumbing facilities	0	0.0%
Lacking complete kitchen facilities	0	0.0%
No telephone service available	0	0.0%

#### **OCCUPANTS PER ROOM**

Occupied housing units	495	495
1.00 or less	495	100.0%
1.01 to 1.50	0	0.0%
1.51 or more	0	0.0%

#### **VALUE**

Owner-occupied units	307	307
Less than \$50,000	0	0.0%
\$50,000 to \$99,999	75	24.4%
\$100,000 to \$149,999	133	43.3%
\$150,000 to \$199,999	76	24.8%
\$200,000 to \$299,999	23	7.5%
\$300,000 to \$499,999	0	0.0%
\$500,000 to \$999,999	0	0.0%
\$1,000,000 or more	0	0.0%
Median (dollars)	133,200	(X)

**MORTGAGE STATUS**

Owner-occupied units	307	307
Housing units with a mortgage	149	48.5%
Housing units without a mortgage	158	51.5%

**SELECTED MONTHLY OWNER COSTS  
(SMOC)**

Housing units with a mortgage	149	149
Less than \$500	0	0.0%
\$500 to \$999	37	24.8%
\$1,000 to \$1,499	21	14.1%
\$1,500 to \$1,999	51	34.2%
\$2,000 to \$2,499	31	20.8%
\$2,500 to \$2,999	9	6.0%
\$3,000 or more	0	0.0%
Median (dollars)	1,606	(X)
Housing units without a mortgage	158	158
Less than \$250	7	4.4%
\$250 to \$399	36	22.8%
\$400 to \$599	70	44.3%
\$600 to \$799	37	23.4%
\$800 to \$999	8	5.1%
\$1,000 or more	0	0.0%
Median (dollars)	537	(X)

**SELECTED MONTHLY OWNER COSTS AS A  
PERCENTAGE OF HOUSEHOLD INCOME  
(SMOCAPI)**

(excluding units where SMOCAPI cannot be computed)	149	149
Less than 20.0 percent	99	66.4%
20.0 to 24.9 percent	26	17.4%
25.0 to 29.9 percent	12	8.1%
30.0 to 34.9 percent	0	0.0%
35.0 percent or more	12	8.1%
Not computed	0	(X)
Housing unit without a mortgage (excluding units where SMOCAPI cannot be computed)	149	149

Less than 10.0 percent	36	24.2%
10.0 to 14.9 percent	22	14.8%
15.0 to 19.9 percent	10	6.7%
20.0 to 24.9 percent	56	37.6%
25.0 to 29.9 percent	25	16.8%
30.0 to 34.9 percent	0	0.0%
35.0 percent or more	0	0.0%
Not computed	9	(X)

### GROSS RENT

Occupied units paying rent	188	188
Less than \$500	8	4.3%
\$500 to \$999	180	95.7%
\$1,000 to \$1,499	0	0.0%
\$1,500 to \$1,999	0	0.0%
\$2,000 to \$2,499	0	0.0%
\$2,500 to \$2,999	0	0.0%
\$3,000 or more	0	0.0%
Median (dollars)	733	(X)
No rent paid	0	(X)

### GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)

Occupied units paying rent (excluding units where GRAPI cannot be computed)	188	188
Less than 15.0 percent	23	12.2%
15.0 to 19.9 percent	59	31.4%
20.0 to 24.9 percent	48	25.5%
25.0 to 29.9 percent	7	3.7%
30.0 to 34.9 percent	16	8.5%
35.0 percent or more	35	18.6%
Not computed	0	(X)

### SELECTED HOUSING CHARACTERISTICS

**Survey/Program:**

American Community Survey

**Year:**

2019

**Estimates:**

5-Year

**Table ID:**

DP04

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015, 2016, and 2019. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

The 2015-2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

**Explanation of Symbols:**

An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

## ACS 2015-2019 SELECTED SOCIAL CHARACTERISTICS

TABLE ID: DP02  
 SURVEY/PROGRAM: American Community Survey  
 PRODUCT: ACS 5-Year Estimates Data Profiles

	Apalachin CDP, New York	
Label	Estimate	Percent
<b>HOUSEHOLDS BY TYPE</b>		
Total households	495	495
Married-couple family	201	40.6%
With own children of the householder under 18 years	43	8.7%
Cohabiting couple household	59	11.9%
With own children of the householder under 18 years	0	0.0%
Male householder, no spouse/partner present	77	15.6%
With own children of the householder under 18 years	37	7.5%
Householder living alone	40	8.1%
65 years and over	15	3.0%
Female householder, no spouse/partner present	158	31.9%
With own children of the householder under 18 years	0	0.0%
Householder living alone	158	31.9%
65 years and over	99	20.0%
Households with one or more people under 18 years	80	16.2%
Households with one or more people 65 years and over	187	37.8%
Average household size	2.08	(X)
Average family size	2.68	(X)
<b>RELATIONSHIP</b>		
Population in households	1,029	1,029
Householder	495	48.1%

Spouse	198	19.2%
Unmarried partner	59	5.7%
Child	248	24.1%
Other relatives	29	2.8%
Other nonrelatives	0	0.0%

### **MARITAL STATUS**

Males 15 years and over	435	435
Never married	149	34.3%
Now married, except separated	241	55.4%
Separated	0	0.0%
Widowed	0	0.0%
Divorced	45	10.3%
Females 15 years and over	524	524
Never married	154	29.4%
Now married, except separated	193	36.8%
Separated	14	2.7%
Widowed	78	14.9%
Divorced	85	16.2%

### **FERTILITY**

Number of women 15 to 50 years old who had a birth in the past 12 months	11	11
Unmarried women (widowed, divorced, and never married)	0	0.0%
Per 1,000 unmarried women	0	(X)
Per 1,000 women 15 to 50 years old	45	(X)
Per 1,000 women 15 to 19 years old	0	(X)
Per 1,000 women 20 to 34 years old	0	(X)
Per 1,000 women 35 to 50 years old	78	(X)

### **GRANDPARENTS**

Number of grandparents living with own grandchildren under 18 years	0	0
Grandparents responsible for grandchildren	0	-
Years responsible for grandchildren		
Less than 1 year	0	-
1 or 2 years	0	-
3 or 4 years	0	-
5 or more years	0	-

Number of grandparents responsible for own grandchildren under 18 years	0	0
Who are female	0	-
Who are married	0	-

### **SCHOOL ENROLLMENT**

Population 3 years and over enrolled in school	205	205
Nursery school, preschool	10	4.9%
Kindergarten	11	5.4%
Elementary school (grades 1-8)	45	22.0%
High school (grades 9-12)	53	25.9%
College or graduate school	86	42.0%

### **EDUCATIONAL ATTAINMENT**

Population 25 years and over	778	778
Less than 9th grade	0	0.0%
9th to 12th grade, no diploma	44	5.7%
High school graduate (includes equivalency)	350	45.0%
Some college, no degree	99	12.7%
Associate's degree	102	13.1%
Bachelor's degree	150	19.3%
Graduate or professional degree	33	4.2%
High school graduate or higher	734	94.3%
Bachelor's degree or higher	183	23.5%

### **VETERAN STATUS**

Civilian population 18 years and over	908	908
Civilian veterans	32	3.5%

### **DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION**

Total Civilian Noninstitutionalized Population	1,037	1,037
With a disability	151	14.6%
Under 18 years	129	129
With a disability	0	0.0%
18 to 64 years	663	663
With a disability	89	13.4%
65 years and over	245	245
With a disability	62	25.3%

### **RESIDENCE 1 YEAR AGO**

Population 1 year and over	1,025	1,025
----------------------------	-------	-------

Same house	963	94.0%
Different house in the U.S.	62	6.0%
Same county	6	0.6%
Different county	56	5.5%
Same state	56	5.5%
Different state	0	0.0%
Abroad	0	0.0%
<b>PLACE OF BIRTH</b>		
Total population	1,037	1,037
Native	1,037	100.0%
Born in United States	1,037	100.0%
State of residence	803	77.4%
Different state	234	22.6%
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	0	0.0%
Foreign born	0	0.0%
<b>U.S. CITIZENSHIP STATUS</b>		
Foreign-born population	0	0
Naturalized U.S. citizen	0	-
Not a U.S. citizen	0	-
<b>YEAR OF ENTRY</b>		
Population born outside the United States	0	0
Native	0	0
Entered 2010 or later	0	-
Entered before 2010	0	-
Foreign born	0	0
Entered 2010 or later	0	-
Entered before 2010	0	-
<b>WORLD REGION OF BIRTH OF FOREIGN BORN</b>		
Foreign-born population, excluding population born at sea	0	0
Europe	0	-
Asia	0	-
Africa	0	-
Oceania	0	-
Latin America	0	-
Northern America	0	-

## LANGUAGE SPOKEN AT HOME

Population 5 years and over	1,015	1,015
English only	1,015	100.0%
Language other than English	0	0.0%
Speak English less than "very well"	0	0.0%
Spanish	0	0.0%
Speak English less than "very well"	0	0.0%
Other Indo-European languages	0	0.0%
Speak English less than "very well"	0	0.0%
Asian and Pacific Islander languages	0	0.0%
Speak English less than "very well"	0	0.0%
Other languages	0	0.0%
Speak English less than "very well"	0	0.0%

## ANCESTRY

Total population	1,037	1,037
American	28	2.7%
Arab	0	0.0%
Czech	7	0.7%
Danish	5	0.5%
Dutch	28	2.7%
English	211	20.3%
French (except Basque)	19	1.8%
French Canadian	27	2.6%
German	143	13.8%
Greek	0	0.0%
Hungarian	0	0.0%
Irish	139	13.4%
Italian	48	4.6%
Lithuanian	0	0.0%
Norwegian	22	2.1%
Polish	94	9.1%
Portuguese	0	0.0%
Russian	15	1.4%
Scotch-Irish	9	0.9%
Scottish	7	0.7%
Slovak	19	1.8%
Subsaharan African	0	0.0%

Swedish	27	2.6%
Swiss	31	3.0%
Ukrainian	0	0.0%
Welsh	7	0.7%
West Indian (excluding Hispanic origin groups)	0	0.0%
<b>COMPUTERS AND INTERNET USE</b>		
Total households	495	495
With a computer	432	87.3%
With a broadband Internet subscription	432	87.3%

### SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

**Survey/Program:**

American Community Survey

**Year:**

2019

**Estimates:**

5-Year

**Table ID:**

DP02

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at [https://www.census.gov/library/working-papers/2017/acs/2017\\_Lewis\\_01.html](https://www.census.gov/library/working-papers/2017/acs/2017_Lewis_01.html) or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes/2017-03.html>. For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico or U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to citizenship edits may have affected citizenship data for those born in American Samoa. Users should be aware of these changes when using 2018 data or multi-year data containing data from 2018. For more information, see: American Samoa Citizenship User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; a fixed wireless subscription; or other non-dial up subscription types.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

The 2015-2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "\*\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.
