Note: Plant location relative to job site will be a consideration in determining the lowest "In-Place" price. Example Calculation: Plant to job site = 12 miles one way

Municipal Cost to Haul = 0.10/ton/mile = 0.10 x ton x 12 miles = \$1.20/ton

Assume you are buying Type 1 base @ 20.50/ton, therefore costs to haul 12 miles is \$20.50 + \$1.20 = \$21.70/ton.

It is understood that the Towns and Villages of Tioga County may also participate in the awarded bid prices by dealing directly with the proposer.

Municipalities should not use the County bid for any items involving labor.
