WILDLIFE PACS

All stock 12-24" unless otherwise noted

BIRD/BUTTERFLY PAC – 2 each: Elderberry, Liatris Spicata, Ninebark, Butterfly bush (root) and Stella De Oro Daylily (root).	\$23/Pac		
NATIVE FLOWERING TREE & SHRUB PAC – 2 each: Eastern Redbud, Red Osier Dogwood, Elderberry, Serviceberry, and Wh. Flowering dogwood	\$23/Pac		
ORNAMENTAL FLOWERING PAC –2 each: Butterfly Bush, Lilac, Ninebark Rose of Sharon, W.F. Dogwood	\$23/Pac		
WILDLIFE NUT TREE PAC – 2 each: White oak, Swamp White Oak, Pin Oak, Sawtooth oak and Red oak.	\$23/Pac		
NATIVE NY WILDLIFE PAC – 2 each: White pine, Red Osier Dogwood, Black Cherry, Hazelnut, Serviceberry	\$23/Pac		
POND HABITAT PAC (NEW) – 2 each: Red Osier Dogwood, Buttonbush, Willow Sycamore, River Birch	\$23/Pac		

GROUND COVERS

PACHYSANDRA	10/\$15		
DAYLILY, Stella De Oro (Heavy one fan division)	10/\$17		
HOSTA PAC- Ventricosa, Hyacinthina, Albo Marginata, F. Aureo Marginata, Hadspen	\$23/Pac		

FLOWERS

PERENNIAL FLOWER PAC-2 each: Dream Baby Daylily & Francis Fay daylily , Blue king iris, Snow queen iris, Stella De Oro Daylily	\$23/pac		
--	----------	--	--

WILDLIFE BERRIES

BLUEBERRY – Duke, Late-season, 5-12" rooted cutting	10/\$30.00		
BLACKBERRY, Darrow – 1-2' rooted cutting	10/\$28.00		
RASPBERRY, Latham Red – 9-15+"" rooted cutting	10/\$28.00		
EDIBLE FRUIT PAC – 2 each Jersey blueberry, Blue Ray blueberry, Raspberry, blackberry, strawberry	\$35/pac

ORDERING EARLY HELPS INSURE THAT WE CAN SUPPLY THE SPECIES YOU WANT BUT YOU ARE STILL NOT GAURENTEED YOUR ORDER. WE WILL TRY OUR BEST TO COMPLETE EVERY ORDER

Stock for the Conservation Planting Program was ordered in October 2021 based on species and numbers sold over the last 2-3 years.

The District reserves the right to refund payment if species is unavailable

Generally we can obtain additional evergreen stock if demand exceeds our original order.

Deciduous species are more difficult to obtain if demand exceeds our original order.

Order large quantities, 100 or more, before March 2022 to better insure availability

Pick up dates are Friday April 15th and Saturday April 16th at Tioga County

Soil and Water Conservation,

183 Corporate Drive, Owego, NY 13827

Pick-up will be a drive-thru similar to last year. Choose your best pick up time above

Additional copies of this order form can be found on our website at

TIOGA COUNTY SOIL AND WATER CONSERVATION DISTRICT – 2022 TREE AND SHRUB PROGRAM

INFORMATION and SPECIES DESCRIPTIONS

The District reserves the right to offer substitutions or refund payment on species if unavailable. The District will NOT be responsible for the success or failure of plantings.

All species are bare rootstock. Evergreen seedlings have grown entirely in their original seedbed and are 3-0 stock, three years in the seedbed. Transplants have been transplanted from the seedbed to a transplant bed. This allows the plant to grow a denser root system, more branching and a thicker stem. Fraser fir are 3-2 transplants. This means 3 years in a seedbed and 2 years in a transplant bed. Northern white cedar & Spruces are 2-2 transplants. Canaan and Balsam Fir are 3-1 transplants. Deciduous seedlings are 1-0 or 2-0 stock.

EVERGREENS

AUSTRIAN PINE - Native to Europe. A tree that grows to a height of 50 feet. Grows well on a variety of soils. Needles are dark green, stiff, grow in clusters of two, and are from 3 to 6 inches long. It is a very attractive ornamental. It is an excellent windbreak because of its stiff branches.

WHITE PINE – Largest of the Northeast conifers. 80 to 100' in height. 3-5" long dark bluish green needles are slender and flexible. Can grow 2'+ per year on preferred sandy loam soil. Valuable softwood timber. Can be pruned for Christmas trees.

BLUE SPRUCE - Native to the Central Rocky Mountains. Needles are approximately 1 inch long and very sharp. It requires a more fertile, well-drained site than white spruce and prefers south and east slopes. It is used mostly as an ornamental and to a lesser degree, as a Christmas tree.

NORWAY SPRUCE - A native of Europe. Needles are dark green, ¾ to 1 inch long. Grows well on a variety of soils. However, the first five years of growth are very slow. It is not recommended for Christmas trees because the needles drop quickly. Used mostly for ornamentals and in windbreaks.

WHITE SPRUCE - Native to northern New York and Canada. Grows well on a variety of soils. Needles are short 1/3 to ¾ inches long, and somewhat blue-green in color. When open grown as an ornamental it develops a handsome conical growth, which extends nearly to the ground. Used as Christmas trees, in windbreaks, and as ornamentals.

EASTERN RED CEDAR – Grows 30-40' in height. Best in full sun and dry to moist well drained soils. Tolerates drought very well. Produces a round blue fruit in the fall for wildlife. Wood is very rot resistant with a which is red and puts off a nice aroma.

SERBIAN SPRUCE – Grows to heights of 50-60' and spread of 25'. Slow to medium growth rate. Full sun to partial shade is best and moist, well drained soils. Tree is tall, thin with swooping arching branches which make it a nice ornamental tree.

BALSAM FIR – Very cold hardy. Grows 45-75' in height and 20-25' spread. Full sun to partial shade and moist, well drained acidic soils.

FRASER FIR - Native to the Appalachian Mountains. Needles are 1/2 to 1 inch long, dark green above and silvery white beneath, and crowded on the upper side of the twig. It's an

excellent Christmas tree, a fast grower when young, and grows to a height of 30 to 40 feet. Likes well drained cool, moist soil. Prefers north and east slopes. Least affected by late spring frosts. Does poorly on hot, dry sites. May not survive extreme droughty conditions.

CANAAN FIR- Native to isolated pockets in West Virginia. Similar to both Fraser and Balsam fir. Will tolerate wetter soils and resistant to spring frost. 40- 55ft high. Best grown in deep, well drained loam with ample moisture.

DECIDUOUS

EASTERN REDBUD – Known as the harbinger of spring. Tree is considered a flowering and ornamental tree growing to a height of 20-30' and a spread of 25 – 35'. Begins flowering at a young age (~4 years) with rosy pink flowers in April. Full sun or partial shade and grows well in most soils.

TULIP TREE – Also called a yellow poplar. Noted for its tulip like flowers that are yellow with an orange band at the base. Flowers are followed by long, oblong, brown shaped fruits. 60 to 90' in height and a 30 to 50' spread. Full sun to partial shade. Grows best in moist, organically rich well drained soils.

DOMESTIC APPLE - Common apple variety. Full size apple tree will produce fruit 1½ -2½" in diameter. Deer and other wildlife will eat fruit.

RIVER BIRCH- Naturally grown on riverbanks but can be grown just about anywhere. 40-70' height. Fast growing. Full sun to partial shade is best. Good erosion control

PAPER BIRCH- Grows 50-70' and 35' spread. Full sun to part shade. Acidic, moist, well drained soils. Has smooth white bark that peels like paper. A tree loved by most people

BUTTON BUSH – Deciduous shrub. 6-12' in height. Grows well in wet soils. Very easy to grow with minimal maintenance. Excellent for wildlife. Full sun to part shade is best.

BLACK CHERRY - Highly valued timber tree growing 60-70 ft. Small cherries are used by wildlife.

SHAGBARK HICKORY- 60'-80'. Bark hangs in long strips on older trees. Edible nut in thick green husk. Thrives in full sun and rich, well drained loam.

RED OSIER DOGWOOD – 7-9' erect shrub with dark red winter stems. Yellowish white flowers in May. Full sun to partial shade. Prefers wet soils. Birds are very attracted to the fruit and for shelter. Good for erosion control

AMERICAN HAZELNUT- or Filbert. Multi stemmed shrub growing 15-18' high. Annual abundant sweet nuts. Plant multiples to ensure pollination. Full sun to partial shade with well-drained soil. Drought tolerant

AMERICAN ELDERBERRY – 10-15' high. Full sun to part shade. Moist well drained soil. Great for wildlife, jams, preserves, tinctures, and more.

WITCH HAZEL – 10-30' height. Pest and disease resistant. Bright yellow fragrant flowers at about 6 years old. Prefers north facing slopes with semi shaded habitats. Regular watering required

WHITE FLOWERING DOGWOOD – Grows to around 25' and 25' spread. Full sun to part shade. Acidic, moist, well drained soils. Great for yards or near buildings because it doesn't get very big. Blooms April-May with white flowers and red fruits in fall.

SWAMP WHITE OAK – Grows to 60-80' as a nice shade tree. Typically grows on hydromorphic acidic

soils in low lands by streams, ponds, etc. Great tree for wildlife with acorns dropping in the fall.

CHINQUAPIN OAK - A fast growing oak, develops a short massive trunk when grown in the open. Produces acorns at 2-5 year intervals when mature. Grows 60-80 ft. tall and 2-3 ft. in diameter. Prefers deep, well-drained soil for best growth. Valuable timber tree. Fall foliage is deep red or orange.

WHITE OAK – 60' high slow growing tree. Grows well on most soils. Acorns great wildlife food, preferred over red oak. Valuable timber tree.

SERVICEBERRY- 8 to 20' high and 4 to 15' wide. Tolerant of most soils and grows well in full sun to part shade. Great pollinator plant and easy to care for.

AMERICAN CRANBERRY – Grows 5-8 ft. Flowers in spring, fruit in summer, and red fall color. Full sun to part shade. Alkaline, moist well drained soils but can tolerate wet sites. Makes great jams and sauces.

LILAC - 3-20' high. 20' wide. Fragrant white, pink, or purple flower clusters. Low maintenance. Makes for good privacy.

RED MAPLE- 40-60' Fast growing and tolerant of many soils. Full sun is best in well drained moist soils

SYCAMORE - Most massive tree in eastern North America grows to 75-100' with horizontal branching and a rounded habit. Grown around streams and rivers. 3-5 lobed medium to dark green leaves (4-10" wide) are similar to maple.

BLACK WALNUT – Grows over 60 ft. tall. Highly valued for its fine wood and edible nuts. Very site specific, prefers a moist, well-drained soil.

ARROWWOOD – Grows 5-10'. Best in Full sun to part shade. Moist well drained soil. Found along water courses. Flowers and fruits are very attractive to butterflies, bees, and song birds. White 4" flowers in late spring bring on blue-black berry drupes.

SPECIES SOLD ONLY IN PACS

Not all species have descriptions in the Pacs. They are elsewhere in the description pages

BIRD AND BUTTERFLY PAC

BUTTERFLY BUSH - A multi-stemmed shrub growing 5-12 ft. high. Fragrant flowers in July through fall attract butterflies. Tolerates most soils. Should be pruned heavily in spring. Stock sold as a live root.

NINEBARK - A 6-10' tall shrub with white cup shaped flower heads. Drought tolerant with little maintenance. Known for its rich purple foliage. Full sun to partial shade. Adaptable to many soils but best in acidic well drained soils.

LIATRIC SPICATA - Perennial in the sunflower and daisy family. Tall spikes of purple flowers that grow 1' to 5' high. Blooms from July to August. Full sun and well-drained soil but can tolerate some shade. Needs regular watering during first growing season.

NATIVE FLOWERING PAC

ORNAMENTAL FLOWERING PAC

ROSE OF SHARON- 8-12' high and 6-10' wide. Full sun to part shade. Large white, red, lavender flowers in late summer to early fall.

PERENNIAL FLOWER PAC

DREAM BABY DAYLILY - Compact but vigorous 18" high daylily has 3.5" light apricot blooms with a purple eye zone and a yellow-green throat. Early to mid-season bloom time.

FRANCES FAY DAYLILY - a 24" tall prolific mid-season bloomer with large & abundant 4" peachy white blossoms.

BLUE KING IRIS - forms an clump of tall deep green grass-like leaves, with royal blue flowers on 24-36" long stems that open above the foliage. Easy to grow and hardy. Clumps return dependably each year with more and more flowers.

SNOW QUEEN IRIS - Regal white flowers with a touch of golden yellow on 30" stems. Blossoms in May and June framed by blue green foliage. Crisp, grassy foliage stays neat looking all season.

STELLA DE ORO - Long season daylily with deep green foliage and a lot of golden-yellow flowers that bloom from late spring to fall. 10-12" high and 12-24" wide.

NUT TREE PAC

PIN OAK - A medium sized red oak that typically grows 50-70' tall with a broad pyramidal crown. Rounded acorns to 1/2" long, are an important source of food for wildlife. Glossy, dark green leaves to 5" long typically have 5 lobes deeply cut close to the midrib. Leaves turn deep red in fall.

SAWTOOTH OAK- Height of 35' in 15 years. May produce nuts in 7-8 years, up to 125 pounds per tree. Grows in medium fertility, slightly acid, clayey, loamy and sandy soils. Fair drought, poor shade tolerance. Food for deer, wild turkey, squirrel and game birds.

POND HABITAT PAC

BUTTONBUSH - A 6-12' wetland shrub. Balls of white flowers resembling pin cushions. 8" long ovate, narrow leaves with glossy upper surface. Shade tolerant, sandy to clay soils. Bees use shrub to make honey and birds and shorebirds consume the seeds.

WILLOW - Black or white willow tree. Best in wet areas with full sun to part shade. Great shade tree. Not good for planting near dwellings

RED OSIER DOGWOOD - 7-9' slender, upright shrub. It has a red stem and white drupe fruit in mid-August. Grows best in wet or swampy conditions. It is also a great structure for holding soil on sloped areas & stream banks.

RIVER BIRCH- Grows well in wet conditions and some dry. Rapid growth and considered a shade and ornamental. Height of 40'-70'. Full sun to partial shade. Great along rivers and streams to help with erosion.

GROUNDCOVERS

PACHYSANDRA - Evergreen ground cover for use in borders, under trees and shrubs and as a lawn substitute in non-traffic areas. Plants 1 foot apart provide dense weed resistant groundcover in 1 to 2 years. Grows in wide range of soils; poor drought tolerance; does not grow well in full sun. Plant rooted cuttings 1 foot apart for rapid growth of dense cover. Clipping in spring stimulates new growth.

DAY LILY - **STELLA DE ORO**

HOSTA- Perennial plant that root sprouts. Has dark green with irregular cream to white margins. Blooms July -August. Full sun to partial shade

WILDLIFE BERRIES

BLUEBERRY - Duke (Early-season) Large light blue berries with mildly sweet flavor. Firm and retains freshness longer than most varieties. Blooms late but ripens early which protects from frost damage. Could yield 20lbs/bush when mature.

BLACKBERRY - Darrow variety. This plant produces large black fruit that is firm, fleshy, and sweet. Will produce over a long period of time. It is a very hardy and heavy producer. The root systems of this plant have great soil holding capacity.

RASPBERRY - Latham Red variety, mid to late season variety that is winter hardy. Deep red medium consistent berries. Good for freezing and jam

STRAWBERRY- Honeyoye variety. Cold hardy, June bearing large bright red berries. 3-4 week crop. Very vigorous runners

PLANTING SUPPLIES

SLOW RELEASE FERTILIZER TABLETS - These tablets supply the necessary nutrients to seedlings for 2-3 years. Use one per seedling, two per transplant. Tablets are placed in the hole, avoiding root contact, when planting. Tablets are 20-10-5 analysis (20% nitrogen, 10% phosphorous, 5% potassium), weight 10 grams. Can also be used to fertilize existing plantings.

PLANTING BAR - Used for planting seedlings. 39" long bar weighs 10 lbs. T handle, dual footsteps. Triangular, tapering pointed edge. Designed for stony soils.

MIRACLE TUBE TREE SHELTERS - Five 5' high shelters 3 1/4" - 5 1/2" diameter nested together for shipping. Ties for attaching to 6' stake (purchase separately) included. Can increase tree height growth up to 600% the first two years. Protects from deer and other critters.
